I am pleased to present my proposal for the development of your website. I am confident in my ability to deliver a high-quality solution that meets your specific requirements and objectives within your budget. The purpose of this proposal is to outline the project phases, requirements, estimated cost, and duration.

**Development Phase**

- Develop complete frontend using Next.js
- Develop serverless APIs and backend on Node.js and AWS, including payment integration
- Connect with MongoDB
- Develop admin panel using Next.js
- Connect admin panel with web
- Testing
- Deployment

**Technologies Used**

- Next.js
- Node.js
- JavaScript

**Client Requirements**

- **Hosting:** A web hosting service to host the website
- **Domain:** Purchase the domain
- **AWS Services:** Required from you for serverless APIs deployment and payment methods.
- **Logo:** Please provide your logo.

**Duration**

Approximately one and a half months.

**Cost**

1,00,000 PKR without database

**Payment Terms**

1. **15% Advance Payment**: Payable upon project kickoff. This payment initiates the development phase and covers initial setup costs.
2. **40% Payment on Mid-Project Completion**: Due upon reaching mid-stage of frontend and backend development. This payment ensures progress and alignment with project milestones.
3. **45% Final Payment on Delivery**: Payable upon successful deployment and testing of the web application. This payment concludes the project and enables the transfer of ownership and documentation.

**Maintenance**

- First three months of maintenance free.
- 15% of the total project cost per month for maintenance thereafter.

I am excited about the opportunity to work with you and deliver a successful website solution that aligns with your business objectives within your specified budget and payment structure. If you have any questions or would like to discuss any aspect of this proposal further, please do not hesitate to contact me.

Thank you.
